

Gannon University
Math 112, Section 01, Spring 2008
Trigonometry
TTh 8:00am – 9:20am
Zurn 428

Instructor: Dr. Geoffrey D. Dietz
E-Mail: dietz005@gannon.edu
Office: Zurn 407
Office Phone: 871-7595
Office Hours: MWF 10am–11am, Th 9:30am–11am, or by appointment
Text: **Trigonometry, 6th Edition.** McKeague and Turner, 2008.

1. **Web Site:** http://www.gannon.edu/faculty_staff/faculty/dietz005/teaching/S08-112.html.
2. **Course Content.** The text is listed above and should be obtained immediately. You are expected to read the assigned sections before every class and be prepared to answer questions. We will cover Chapters 1–8, which include the following topics: trigonometric functions, radian measure, trigonometric identities and equations, solutions of triangles, vectors, complex numbers, and polar coordinates.
3. **Course Outcomes.** You will learn the concepts and techniques of trigonometry. You will also learn how these concepts can be applied to problem solving in various scientific fields.
4. **Evaluation.** Quizzes will be given approximately once per week and will always be announced ahead of time. Ordinarily make-up quizzes will not be offered, but the lowest quiz grade will be dropped. Three exams will be held during regular class time, and the dates may be subject to change. Homework problems will be assigned in class. Although they will not be collected and graded, correctly solving these problems is essential to prepare for the quizzes and exams.
5. **Grading.** Final grades will be based on
A: 90–100 B+: 85–89 B: 80–84 C+: 75–79 C: 70–74 D: 60–69 F: 0–59.
The ranges may be widened at my discretion. The grades are weighted as follows:

Exam 1 (Thurs. 2/7):	17%
Exam 2 (Thurs. 3/13):	17%
Exam 3 (Thurs. 4/10):	17%
Final Exam (Thurs. 5/8, 8:30am–10:30am):	33%
Quizzes:	16%
6. **Attendance.** Attendance at every class is expected in order to maximize your success in this course. Regular attendance of scheduled office hours is also recommended if you have additional questions or concerns about any aspect of the course. You are responsible for obtaining any information missed due to absence.
7. **Excused Absences.** An excused absence from an exam will only be given when the absence is truly unavoidable and beyond your control. If you have advanced warning of a situation that will cause you to miss an exam, you must arrange a make-up exam before your absence. An exam missed due to illness must be made up the following day unless excused by a doctor.
8. **Technology.** A calculator is recommended for this course and will be useful during class and on exams. Any calculator capable of performing trigonometric calculations will suffice. It is your responsibility to understand how to operate your calculator.

9. **Academic Integrity.** Students are assumed to be familiar with the Academic Integrity Policy found in the current edition of the student handbook. Cheating or dishonesty may result in a failing course grade or even expulsion from the University.

10. **Student Disabilities.** Gannon University is committed to providing reasonable accommodation for all students with disabilities. Students with disabilities who require accommodations in this course are requested to speak with me as early in the semester as possible. You must also be registered with The Program for Students with Learning Disabilities prior to receiving accommodations in this course.
